Date: _____

Data-Dex: Ultimate Stat Lab

Welcome, Trainer! Use the Data-Dex application (datadex.famruiz.com) to explore the world of Pokémon stats. Complete the quests below and document your discoveries.

Level 1: Basic Navigation

- ☐ **The Tiny Titan:** Use the 'Exploring the World' scatter plot to find a Pokémon shorter than 1'8" (0.5m) with an Attack over 100.

My Findings: _____

- ☐ **Speed King:** Check the Type Leaderboard. Which Type has the highest average Speed?

My Findings: _____

Level 2: Comparing Data

- ☐ **The Shape of Stats:** Both Mew and Deoxys (Normal Forme) have a total base stat (the sum of all 6 stats) of 600. Use the Radar Chart to compare them. How are they different?

My Findings: _____

- ☐ **Above the Bar:** Pick your favorite Pokémon. Is its HP above or below the Global Average line found in the Type Leaderboard?

My Findings: _____

- ☐ **Trainer vs Pokémon:** Add your height and weight to the "Trainer Comparison" section in the sidebar. How do you stack up against your favorite Pokémon?

My Findings: _____

Level 3: Finding Outliers

- ☐ **Deceptive Appearances:** Find a tiny (under 6" / 0.15m) but very heavy (over 2200 lbs / 999kg) Pokémon.

My Findings: _____

- ☐ **The Unbreakable Wall:** Find a Pokémon that has extremely high (200+) defense and special defense stats, but very low stats otherwise.

My Findings: _____
