

DATA-DEX: ULTIMATE STAT LAB

Researcher Worksheet

Welcome, Researcher! Use the Data-Dex application to explore the hidden stats of Pokémon. Complete the quests below and document your discoveries.

Level 1: Basic Navigation

☐ **The Tiny Titan:** Find a Pokémon shorter than 1'8" (0.5m) with an Attack over 100.

My Findings: _____

☐ **Speed King:** Check the Type Leaderboard. Which Type has the highest average Speed?

My Findings: _____

Level 2: Comparing Data

☐ **The Shape-Shifter:** Compare a 'Heavyweight' (like Snorlax) and a 'Speedster' (like Pikachu). Describe their Radar Chart shapes.

My Findings: _____

☐ **Above the Bar:** Pick your favorite Pokémon. Is its HP above or below the Global Average line (around 70)?

My Findings: _____

Level 3: Finding Outliers

☐ **The Rule Breaker:** Find a very heavy Pokémon (over 440 lbs / 200kg) that is tiny (under 1'8" / 0.5m).

My Findings: _____

☐ **The Specialist:** Find a Pokémon with one HUGE stat spike but very weak stats elsewhere. What is the specialist's best stat?

My Findings: _____
